Re: Ash Grove Cement Company, Leamington Plant - Notice of Intention to Revise Large Mining Permit M/023/044, Submitted June 27, 2000 - CD-ROM of Maps and Drawings.

Dear Mr. Gallegos:

Enclosed as requested by the Utah Division of Oil, Gas and Mining in our meeting on July 27, 2000, is a CD-ROM which contains the maps and drawings which were included in the Notice of Intention to Revise Large Mining Permit M/023/044 submitted by Ash Grove Cement Company's letter dated June 27, 2000. We have also included other information on the CD-ROM, such as figures and cross-sections produced in digital form, which may be helpful to you in your review.

Thank you for your e-mail message dated July 27, 2000 which advised the Division uses AutoCAD r14.01. As you requested, all of the maps and drawings and the majority of the other information included on the CD-ROM is in AutoCAD r14.01. However, some figures and cross-sections are in Corel Draw as noted by the file extensions. Also included on the CD-ROM are plot files that may be used in plotting the drawings and maps.

Please note that the following maps are not included on the CD-ROM as they were provided by Ash Grove Cement Company in hard copy form and were not available or converted to digital files:

- Appendix 7A - Drawing No. 8-277D-1 Drainage Plan/Vicinity Map
- Appendix 7B - Drawing No. 8-277D-2 Site Drainage Plan
- Appendix 7C - Drawing No. 8-277D-3 Proposed Sedimentation Ponds
- Appendix 7D - Drawing No. 8-277D-4 Prop. & Existing Sedimentation Ponds
- Appendix 7E - Drawing No. 8-277D-5 Site Drainage System (Pond No. 1)
- Appendix 7F - Drawing No. 8-277D-6 Site Drainage System (Pond No. 5)
- Appendix 8 - Geology of the Champlin Peak Quadrangle, Juab and Millard Counties, Utah.

I will convert the Surety Estimate from Excel to QuatroPro 8, as you requested, and send it to you on disk next week. Please call me if you have any questions or need additional information.

Sincerely,

David Ray Williamson

Enclosure
